All,

I spoke with Marilyn this morning and she is waiting for some important info. from the contractor. She hopes to receive it and forward the package for review later today. When received, I will make review a priority.

Subject: Gold King Mine Release - HDPE Pipe installation

Richard,

A subcontract award is pending for the HDPE pipe needed to convey the GK mine water to Gladstone area. The current estimate is \$250K. The bidders (3) were reviewed in detail by Weston's engineers, EPA (3 OSCs) and ER, LLC. The best value bid was selected, and when all costs were considered based on the respective assistance required from the subcontractor to perform the work, the costs were very similar.

It is important that we begin this work as soon as possible given the weather window that remains onsite for this type of work.

Thank you for your assistance in this matter.

Steve
